**B-BBEE Level 1**

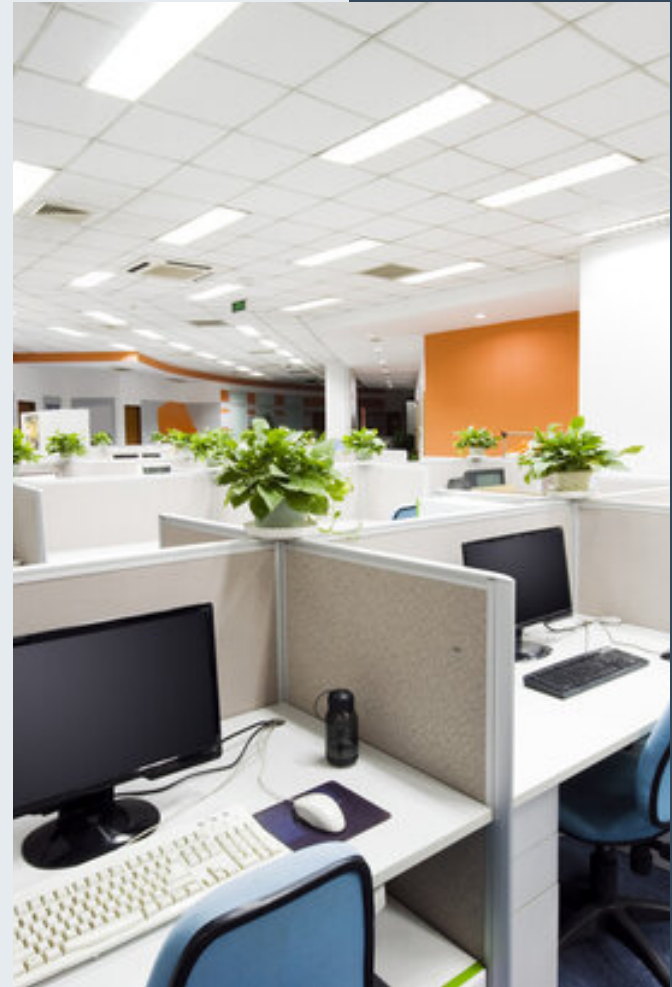

Est. 1993

## Company Summary

Since 1993

Boston Bearings & Engineering Supplies plays a key role in the supply & delivery of Bearings as well as a variety of Engineering Supplies. Established in 1993, we are proud to have been in business for over 30 years! We are a Level 1 B-BBEE supplier.

Our supply of leading global brands means that you don't have to compromise on quality to experience the most responsive service in the industry.

## Mission

To ensure a smooth process of procurement for our Customers that will result in limited downtime & maximum efficiency & run time on their machinery.

We want to be the best & most highly valued Supplier to our Customers.

## Values

We have always had & will always have the best interests of our Customers in mind when doing business.

We pride ourselves in honest & straightforward business dealings. It is crucial to understand your Customers needs & requirements to ensure a good working relationship.

We continue to make every effort to support & service our valued Customers.

## Vision

It is our goal to give our best at what we do!

We want to be associated with our valued Customer as an integral part of their process & systems.

Growth in our industry is crucial & we always strive to improve in all facets of our dealings with our Customers, both existing & new, as well as improve our relationships within our sector.
